

Faculty of Nursing

Course Outcomes

Name of the Programme: B.Sc Nursing
Programme code: NUR 01

Name of the programme	Name of the course	Course code	Course outcomes
B.Sc(N)	Anatomy	NP01NS-1C1	Enable the students to acquire knowledge of the normal Structure of various human body systems and understand the alterations in anatomical structures in disease and practice of nursing.
	Physiology	NP01NS-1C2	Assist the students to acquire knowledge of the normal Physiology of various human body systems and understand the alterations in physiology in diseases and practice of nursing
	Nutrition	NP01NS-1C3	Assist the students to acquire knowledge of nutrition for maintenance of optimum health at different stages of life and its application for practice of nursing
	Biochemistry	NP01NS-1C4	Assist the students to acquire knowledge of the normal biochemical composition and functioning of human body and understand the alterations in biochemistry in diseases for practice of nursing.
	Nursing Foundation	NP01NS-1C5	Help the students to develop an understanding of the philosophy, objective, theories and process of nursing in various Supervised Clinical settings. It is aimed at helping the students to acquire knowledge, understanding and skills in techniques of nursing and practice them in Supervised Clinical settings.
	Psychology	NP01NS-1C6	Assist the students to acquire knowledge of fundamentals of psychology and develop an insight into behavior of self and others. Further it is aimed at helping them to practice the principles of mental hygiene for promoting mental health in nursing practice
	Microbiology	NP01NS-1C7	Enable the students to acquire understanding of fundamentals of Microbiology and identification of various micro-organisms. It also provides opportunities for practicing infection control measures in hospital and community settings.
	English	NP01NS-1L8	Enable the students to enhance ability to comprehend spoken and written English (and use English) required for effective communication in their professional work. Students will practice their skills in verbal and written English during clinical and classroom experiences.

Introduction to Computer	NP01NS-1S9	Help the students to develop basic understanding of uses of computer and its applications in Nursing.
Sociology	NP01NS-2C1	Introduce the concepts of sociology related to community and social institutions in India and its relationship with health, illness and nursing.
Medical – Surgical Nursing –I	NP01NS-2C2	Acquire knowledge and develop proficiency in caring for patients with medical and surgical disorders in varieties of health care settings and at home
Pharmacology	NP01NS-2C3	Enable the students to acquire understanding of pharmaco-dynamics, Pharmacokinetics, principles of therapeutics and nursing implications.
Pathology, genetics	NP01NS-2C4	Enable students to acquire knowledge of genetics genetics and pathology of various disease conditions and understanding role of genetics in causation and management defects and diseases
Community Health Nursing- I	NP01NS-2C5	Help the students to appreciate the principles of promotion and maintenance of health.
Communication and Education Technology	NP01NS-2C6	Assist the students to acquire an understanding of the principles and methods of communication and teaching. It helps to develop skill in communicating effectively, maintaining effective interpersonal relations, teaching individuals and groups in clinical, community health and educational settings.
Medical – Surgical Nursing- II	NP01NS-3C1	Acquire knowledge and develop proficiency in caring for patients with medical surgical disorders in varieties of health care settings and at home.
Child Health Nursing	NP01NS-3C2	Develop an understanding of the modern approach to child-care, identification, prevention and nursing management of common health problems of neonates and children.
Mental Health Nursing	NP01NS-3C3	Develop an understanding of the modern approach to mental health, identification, prevention and nursing management of common mental health problems with special emphasis on therapeutic interventions for individuals, family and community.
Nursing Research & Statistics	NP01NS-3C4	Enable students to develop an understanding of basic concepts of research, research process and statistics and to enable them to conduct/participate in need based research studies in various settings. Further the

			students will be able to utilize the research findings to provide quality- nursing care. The hours for practical will be utilized for conducting individual or group research project
Midwifery and Obstetrical Nursing	NP01NS-4C1		Appreciate the concepts and principles of midwifery and obstetrical nursing. It helps them to acquire knowledge and skills in rendering nursing care to normal and high risk pregnant women during antenatal, natal and postnatal periods in hospitals and community settings. It also helps to develop skills in managing normal and high risk neonates and participate in family welfare programme.
Community Health Nursing- II	NP01NS-4C2		Help the students practice Community Health Nursing for the individual, family and groups at both urban and rural settings by using concept and Principles of Health and Community Health Nursing
Management of Nursing Services and education	NP01NS-4C3		Enable students to acquire understanding of management of clinical and community health nursing services nursing educational program responsibilities, proposed and contribution to the growth of the Profession

Name of the programme: Post Basic B.Sc Nursing
Programme code: PBNUR 01

Name of the programme	Course	Course code	Course outcome
P.B.B.Sc(N)	Nursing Foundation	NP01PB-1C1	Help students to develop an understanding of the philosophy, objectives and responsibilities of Nursing as a profession. And also to orient one to the current concepts involved in the practices of nursing and developments in the Nursing profession
	Nutrition & Dietetics	NP01PB-1C2	Provide with a wide knowledge of dietetics in Indian setting, that the practice of teaching optimum and realistic dietary planning can become an integral part of nursing practice
	Biochemistry & Biophysics	NP01PB-1C3 NP01PB-1C4	Identify the basic principles of Biochemistry and synthesize the knowledge of these principles in various nursing situations
	Psychology	NP01PB-1C5	Reorient and widen the student's knowledge of fundamentals of psychology. The student is offered an opportunity to apply the theoretical principles in the clinical setting and there by understand the psychodynamics of patient behaviour. This course would also help the student to develop an insight into her own behaviour.
	Microbiology	NP01PB-1C6	Reorients the student to the fundamentals of microbiology and its various sub- divisions. It provides opportunities to gain skill in handling and use of microscope for identifying the various micro-organisms. It also provides opportunities to safe handling of materials containing harmful bacteria and methods of destroying micro-organisms
	Maternal Nursing	NP01PB-1C7	Widen the student's knowledge of obstetrics during pregnancy, labour and puerperium. It also helps to acquire knowledge and develop skill in rendering optimum nursing care to a child bearing mother in a hospital or community and help in the management of common gynecological problems
	Child Health	NP01PB-1C8	Develop an understanding of modern approach to child care identification, prevention and nursing

Nursing		management of common health problems of neonates and children
Medical & Surgical Nursing	NP01PB-1C9	Widen the student's knowledge and develop proficiency in caring for patients with medical surgical problems. This course includes review of relevant anatomy and physiology, pathophysiology in medical surgical disorders and the Nursing management of these conditions
English	NP01PB-1L1	Help the student to understand and usage of English language required for their professional work
Sociology	NP01PB-2C1	Reorient the students to sociology related to community and social institution in India and its relationship with health, illness and nursing
Community Health Nursing	NP01PB-2C2	Enables the students to understand the national health care delivery system and to participate in the delivery of community health nursing
Mental Health Nursing	NP01PB-2C3	Enables the students to recognise and appreciate the causes, symptoms and process of abnormal human behaviour. It also introduces the students to the present day treatment modalities in the light of psychological, social and cultural factors affecting human behaviour. This course helps the student to learn principles of mental health and psychiatric nursing and to develop beginning skills in the management of the mentally ill in hospital and community

Introduction to Nursing Administration	NP01PB-2C5	Understanding of the principles of administration and its application to nursing service. It is also intended to assist the students to develop an understanding of professional leadership position and its beginning functions
Introduction to Nursing Research & Statistics	NP01PB-2C6	Assist the students to develop an understanding of basic concepts of research and statistics, use the findings of nursing research in nursing practice, apply the knowledge in conducting projects and solve problems related to nursing using scientific methods

Name of the Programme: M.Sc Nursing
Programme code: NUR 02

Name of the programme	Course	Course code	Course outcome
M.Sc(N)	Nursing Education	NP02NS-1C1	Assist students to develop a broad understanding of fundamental principles, concepts, trends and issues related to education and nursing education. Further, it would provide opportunity to students to understand, appreciate and acquire skills in teaching and evaluation, curriculum development, implementation, maintenance of standards and accreditation of various nursing educational programs
	Advance Nursing practice	NP02NS-1C2	Develop an understanding of concepts and constructs of theoretical basis of advance nursing practice and critically analyze different theories of nursing and other disciplines
	Nursing Research	NP02NS-1C3	Assist the students to acquire an understanding of the research methodology and statistical methods as a basis for identifying research problem, planning and implementing a research plan. It will further enable the students to evaluate research studies and utilize research findings to improve quality of nursing practice, education and management
	Biostatistics	NP02NS-1C4	Develop an understanding of the statistical methods and apply them in conducting research studies in nursing
	Mental Health Nursing I	NP02CS-1C1	Developing expertise and indepth understanding in the field of psychiatric nursing. It will help students to appreciate the client as a holistic individual and develop skill to function as psychiatric nurse specialist. It will further enable the student to function as educator, manager and researcher in the field of psychiatric nursing
	Child Health Nursing I	NP02CS-1C2	Assist students in developing expertise and in-depth understanding in the field of Pediatric Nursing. It will help students to appreciate the child as a holistic individual

			and develop skill to function as neonatal and pediatric nurse specialist. It will further enable the student to function as educator, manager, and researcher in the field of Paediatric nursing
Community Health Nursing I	NP02CS-1C3		Assist students in developing expertise and in- depth understanding in the field of Community Health Nursing. It would help students to appreciate holistic life style of individuals, families & groups and develop skills to function as Community Health Nurse specialist/practitioner. It would further enable student to function as an educator, manager and researcher in the field of Community Health Nursing
Medical Surgical Nursing I	NP02CS-1C4		This course is common for the students undergoing clinical specialty-II in Neuro Science Nursing/ Cardiovascular & Thoracic Nursing/Critical Care Nursing/Oncology Nursing/Orthopedic and Rehabilitation Nursing/Nephro & Urology Nursing, Gastroenterology Nursing/ Geriatric Nursing
Obstetrics &Gynecologic Nursing I	NP02CS-1C5		Assist students in developing expertise and in-depth understanding in the field of Obstetric and Gynaecological Nursing. It will help students to appreciate the client as a holistic individual and develop skill to function as an independent midwifery practitioner. It will further enable the student to function as educator, manager, and researcher in the field of Obstetric and Gynaecological Nursing
Nursing Management	NP02NS-2C1		Assist students to develop a broad understanding of principles, concepts, trends and issues related to nursing management. Further, it would provide opportunity to students to understand, appreciate and acquire skills in planning, supervision and management of nursing services at different levels to provide quality nursing services.
Mental Health Nursing II	NP02CS-2C1		Assist students in developing expertise and in depth understanding in the field of psychiatric nursing. It will help students to develop advanced skills for nursing

			intervention in various psychiatric conditions. It will enable the student to function as psychiatric nurse practitioner/specialist. It will further enable the student to function as educator, manager, and researcher in the field of psychiatric nursing
Child Health Nursing II	NP02CS-2C2		Assist students in developing expertise and in depth understanding in the field of Pediatric Nursing. It will help students to develop advanced skills for nursing intervention in various pediatric medical and surgical conditions. It will enable the student to function as pediatric nurse practitioner/specialist. It will further enable the student to function as educator, manager, and researcher in the field of Paediatric nursing
Community Health Nursing II	NP02CS-2C3		Assist students in developing expertise and in-depth understanding in the field of community health nursing. It will help students to develop advanced skills for nursing intervention in various aspects of community health care settings. It will enable the student to function as community health nurse practitioner/specialist. It will further enable the student to function as educator, manager and researcher in the field of community health nursing
Medical Surgical Nursing II Critical care nursing	NP02CS-2E1		Assist students in developing expertise and in- depth knowledge in the field of Critical care Nursing. It will help students to develop advanced skills for nursing intervention in caring for critically ill patients. It will enable the student to function as critical care nurse practitioner/ specialist. It will further enable the student to function as educator, manager and researcher in the field of Critical Care Nursing
Orthopedic	NP02CS-2E2		Assist students in developing expertise and in- depth understanding in the field of

	Nursing		orthopedic nursing. It will help students to develop advanced skills for nursing intervention in various orthopedic conditions. It will enable the student to function as orthopedic nurse practitioner/specialist providing quality care. It will further enable the student to function as educator, manager, and researcher in the field of orthopedic nursing.
	Cardio Vascular and Thoracic Nursing	NP02CS-2E3	Assist students in developing expertise and in-depth understanding in the field of cardiovascular and thoracic nursing. It will help students to develop advanced skills for nursing intervention in various cardio medical and surgical conditions. It will enable the student to function as cardio vascular and thoracic nurse practitioner/specialist. It will further enable the student to function as educator, manager and researcher in the field of cardio vascular and thoracic nursing
	Neuro Sciences Nursing	NP02CS-2E4	Assist students in developing expertise and in-depth knowledge in the field of neurology and neurosurgical Nursing. It will help students to develop advanced skills for nursing intervention in caring for patients with neurological and neurosurgical disorders. It will enable the student to function as neuroscience nurse practitioner/ specialist. It will further enable the student to function as educator, manager and researcher in the field of neurology and neurosurgical Nursing.
	Nephro – Urology Nursing	NP02CS-2E5	Assist students in developing expertise and in-depth understanding in the field of Nephro and urological Nursing. It will help students to develop advanced skills for nursing intervention in various nephro and urological conditions. It will enable the student to function as nephro and urology nurse practitioner/specialist and provide quality care. It will further enable the student to function as educator, manager, and researcher in the field of

			nephro and urology nursing
Oncology Nursing	NP02CS-2E6	Assist students in developing expertise and in- depth understanding in the field of oncology Nursing. It will help students to develop advanced skills for nursing intervention in various oncological conditions. It will enable the student to function as oncology nurse practitioner/specialist and provide quality care. It will further enable the student to function as educator, manager, and researcher in the field of oncology nursing	
Gastro Enterology Nursing	NP02CS-2E7	Assist students in developing expertise and in- depth understanding in the field of gastro enterology Nursing. It will help students to develop advanced skills for nursing intervention in various gastro enterology conditions. It will enable the student to function as gastro enterology nurse practitioner/ specialist and provide quality care. It will further enable the student to function as educator, manager, and researcher in the field of gastro enterology nursing.	
Obstetrics & Gynecologic Nursing II	NP02CS-2C5	Assist the student in developing expertise and in- depth understanding in the field of Obstetric and Gynecological Nursing. It will help the student to develop advanced nursing skills for nursing interventions in various obstetrical and gynecological conditions. It will further enable the students to function as midwifery nurse practitioner/ specialist, educator, manager and researcher in the field of Obstetric and Gynecological Nursing.
